Question 1: Are the Aruba APs being requesting replacements for the entire school or add-ons for the school?

Answer 1: This is just replacing existing hardware and not adding any on. Note: Clarke County School District will consider Aruba (or equivalent).

Question 2: Would you be open to a 30min call to show you the platform and see if you'd like to get a free, no obligation trial sensor to test for yourself.

Answer 2: No thank you, not needed at this time. As specified in the RFP, no product demonstrations will be granted. To ensure a fair and open competitive bidding process takes place no discussions will held with prospective offerors regarding any products and/or services.

Question 3: In the RFP it says you all are looking for SFP+ 10G modules Short Range and SFP+ 10G modules Long Range. There are several different modules with different ranges, what range specifically are you looking for?

Answer 3: Here are the desired specs for this.

SFP-10G-SR Rate: 10Gbps

wavelength: 850nm

distance: 300m

interface: LC duplex

SFP-10G-LR

Rate: 10Gbps

Wavelength: 1310nm

distance: 10km

interface: LC duplex
